SUMMARY

Aspiring Data Engineer and AI Practitioner pursuing a B.Tech in CSE (AI & ML) through the NIAT program at Joy University, with a completed Advanced Diploma in Data Engineering, Generative AI & Big Data. Skilled in Python, SQL, Machine Learning, and Generative AI, with hands-on experience building and deploying AI-powered applications spanning resume screening, expense analytics, and product warranty/reliability analytics. Currently developing an AI-based detection system with an integrated chatbot, using Computer Vision, Deep Learning, and Generative AI. Passionate about building scalable, deployable, data-driven solutions.

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML) *In Progress*
NIAT Program, Joy University — Kerala, India

Advanced Diploma in Data Engineering, Generative AI & Big Data *2025 – 2026*
Certification Program — Kerala, India

Higher Secondary Education (+2) – Computer Science *Completed*
Kerala State Board — Kerala, India

PROJECTS

FailSight AI — Advanced Edition *Python, Streamlit, Deep Learning | 2026*
- Streamlit platform for product failure and warranty analytics, using anomaly detection, LSTM forecasting, and sentiment analysis; deployed live.

AI Detection System with Chatbot *Computer Vision, Deep Learning, Gen AI | In Progress*
- Detection system with an integrated chatbot, combining computer vision, deep learning, and generative AI.

Resume Screener *Python, NLP, Streamlit, Scikit-learn | 2025*
- AI-powered resume screening tool that ranks resumes against job descriptions using TF-IDF and NLP-based matching.

Expense Analyzer *Python, Pandas, Matplotlib, Streamlit | 2025*
- Interactive dashboard for categorizing spending and generating budgeting insights from uploaded CSV transaction data.

SKILLS

Programming: Python, SQL, Pandas, NumPy
Machine Learning: Regression, Classification, Random Forest, XGBoost
AI & NLP: Generative AI, TF-IDF, Sentiment Analysis, Prompt Engineering
Deep Learning: Autoencoders, LSTM, Computer Vision
Data Engineering: ETL Pipelines, Apache Spark, BigQuery
Tools: Streamlit, Power BI, Tableau, Git, GitHub, Jupyter Notebook
Cloud & Deployment: Streamlit Cloud, REST APIs, Docker (Basics)

CERTIFICATIONS

- IBM — Python for Data Science (2026)
- IBM — Machine Learning with Python (2026)
- Cognitive Class — Machine Learning with Python (2026)
- Forage — British Airways Data Science Job Simulation (2026)
- Cognitive Class — Python 101 for Data Science (2025)
